NCCO

**National Chemical Company**

Transforming Waste into Sustainable Value

In a rapidly evolving industrial world, National Chemical Company (NCCO) stands as a Saudi pioneer in sustainable chemical innovation. From the heart of the Kingdom's industry, we transform resources into advanced, high-quality products that meet global standards. We don't just manufacture chemicals — we create sustainable value that strengthens the Saudi industrial future and extends proudly to global markets. **Saudi Innovation for a Sustainable Industry**

# About NCCO:

National Chemical Company (NCCO) is a Saudi pioneer in the chemical and petrochemical industries. We specialize in industrial production, chemical waste recycling, and developing innovative solutions that support the Kingdom's sustainability goals. NCCO was founded as a model of integration between industrial operations, research & development, and environmental activity, turning resources into real value.

## IN VISION WITH

We envision our Kingdom where waste is transformed into valuable resources  
creating a sustainable and thriving ecosystem for generations to come

## Our Mission:

To commit to innovative, integrated industrial and environmental solutions that combine quality, sustainability, and innovation, building a self-reliant Saudi system that supports the circular economy.

## Our Vision:

To be a leading Saudi company in transforming resources and forgotten materials into advanced, sustainable chemical products that rival global standards and serve the future of national industry.

## Our Values:

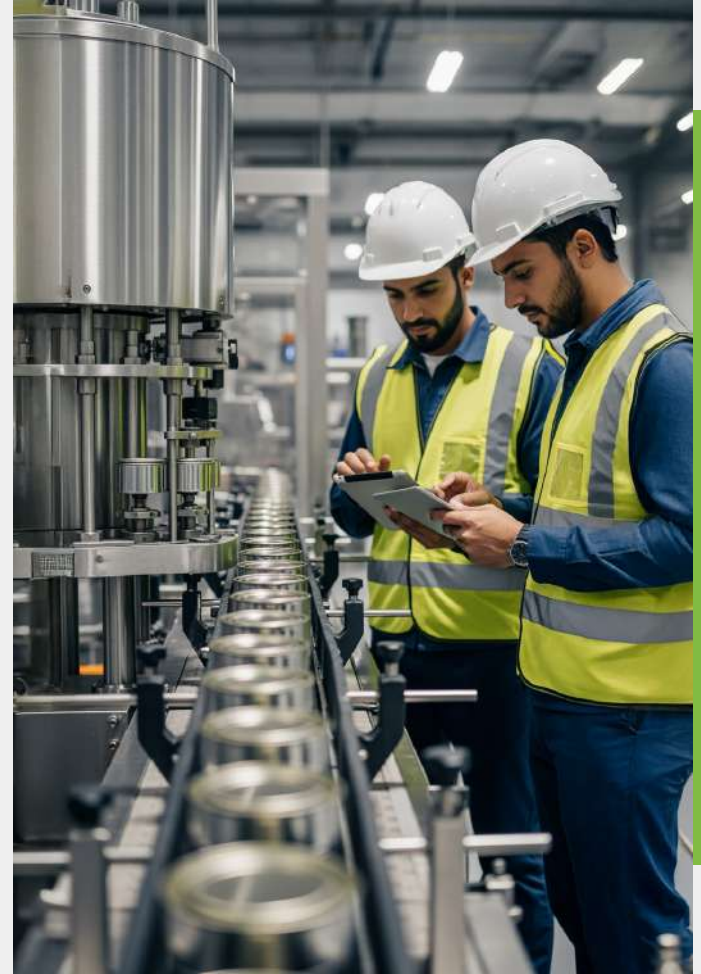

- **Innovation** : Developing renewable and efficient chemical solutions.
- **Sustainability** : Transforming forgotten resources into assets that serve both environment and economy.
- **Transparency** : Building relationships based on trust and integrity.
- **Responsibility** : Contributing to environmental protection and developing national talent.
- **Quality** : Commitment to the highest standards of industrial performance and Saudi specifications .

## Our Competitive Edge:

At NCCO, we believe difference drives leadership. What sets us apart is more than product quality it's our philosophy that merges innovation, sustainability, and global vision

- We use recycled materials to cut costs and boost sustainability.
- Strong R&D to meet Saudi and regional market needs.
- National alternatives to imported materials.
- Flexible production for diverse, high-performance paints.
- Export-ready products meeting global standards.

## Our Core Activities:

NCCO operates through three integrated sectors that form the backbone of its strategy and operations:

## Industrial Sector

**The beating heart of NCCO.**

**We enhance local production and meet the needs of Saudi Arabia's construction and industrial sectors with high-quality, cost-effective products.**

**Key activities include:**

- Producing various thinners (industrial, paint, and multi-purpose).
- Using state-of-the-art manufacturing technologies to ensure product purity and performance.
- Complying with Saudi standards to provide competitive national alternatives.

## 2. Research & Development (R&D)

**The driving force of innovation at NCCO.**

**Our R&D Center focuses on:**

- Developing alternative chemical products based on customer needs.
- Studying chemical waste to transform it into raw materials or new products.
- Supporting industrial innovation through experimentation, analysis, and continuous development.
- Producing rapid ignition aids from recycled chemical materials.
- Creating eco-friendly field food heating materials.
- Designing new chemical products based on locally recycled resources.
- Exploring advanced solutions for oil and solid waste recycling.

**Future R&D projects include:**

- Recycling aromatic oils, hydrocarbons, and solvents.
- Converting liquid waste into reusable materials.
- Applying circular economy principles to cut emissions and environmental impact.

## Environmental Sector

Driven by our deep sense of responsibility toward the planet, NCCO focuses on:

- Reducing the environmental impact of industrial operations.
- Operating under approved environmental standards and compliance with Saudi regulations.
- Aligning with the Saudi Green Initiative and Vision 2030 goals toward a sustainable circular economy and net-zero carbon value.

At NCCO, we believe every resource has a life cycle—even the forgotten ones.

We restore them, reshape them, and bring out new value that serves both humanity and nature.

## Our Commitment to Sustainability

At NCCO, we believe every resource has a life cycle even the forgotten ones. We revive and reshape them into products that serve both people and the planet.

### We operate in full alignment with Saudi Vision 2030

Driving the transformation toward a sustainable circular economy, achieving carbon neutrality, and ensuring responsible industrial growth. Our sustainability practices include: Reducing the environmental impact of industrial waste. Complying with the regulations of the National Center for Environmental Compliance (NCEC). Recycling and reusing resources safely and efficiently within production processes.

# Main Products :

**Polyurethane Thinner:**  
Used for polyurethane paints and varnishes. Fast-drying, efficient, and ideal for spraying applications.

**Nitrocellulose Thinner:**  
Provides a smooth, glossy finish. Commonly used for automotive, furniture, and musical instrument coatings.

**Polyester Thinner:**  
Suitable for plastic and marine industries, fiberglass coatings, and weather-resistant finishes.

# I Future Expansion Goals:

## Digital Transformation:

Integrating smart systems to monitor efficiency and production quality.

## Industrial Expansion:

Adding new production lines for specialized paints and solvents.

## Environmental Expansion:

Establishing an advanced recycling and treatment unit in Yanbu Industrial City.

## Research Expansion:

Developing a comprehensive R&D center for sustainable product innovation.

# Certifications & Compliance:

 **CERTIFICATE**

This is hereby certified that the Quality Management System of  
**National Chemical Industrial Company (NCCO)**

# Our Team :

NCCO's team is composed of distinguished Saudi and Arab professionals specialized in chemistry, engineering, and industrial project management. Together, their local expertise and international experience ensure exceptional quality, precision, and performance across all stages—from research and development to production and operations. We believe diversity is a catalyst for success—our team combines Saudi innovation with regional expertise to build a modern industrial ecosystem founded on knowledge and efficiency.

# Thank you
