IN VISION WITH

We envision our Kingdom where waste is transformed into valuable resources, creating a sustainable and thriving ecosystem for generations to come

PRINCE MOHAMMED BIN SALMAN'S QUOTE ON SUSTAINABILITY

Our vision is driven by our deep commitment to the environment, guided by the principles of Saudi Arabia's Vision 2030. As His Royal Highness Prince Mohammed bin Salman, Crown Prince, stated in an interview on the occasion of the fifth anniversary of Vision 2030:

"One of our biggest goals is to develop non-oil sectors. Industry is a key element in this direction, and we are working to empower it through technology, innovation, and localizing supply chains. We aim to become a global hub for industry and investment, focusing on sustainability by enhancing renewable energy and the circular carbon economy to ensure a sustainable future."

These principles are reflected in our work at NCCO, where we strive to convert industrial and petrochemical waste into valuable products with high market value. We believe that innovative recycling practices can greatly reduce negative environmental impacts, creating a safer and healthier society while contributing to global sustainability goals

رؤية
VISION
2030
المملكة العربية السعودية
KINGDOM OF SAUDI ARABIA

Sustainability

NCCO strives to enhance sustainability in alignment with Saudi Arabia's Vision 2030 by offering innovative solutions in the petrochemical industry, with a focus on recycling industrial and petrochemical waste to reduce the environmental impact of waste disposal. We believe that waste can be transformed into valuable resources that contribute to a sustainable economy, inspired by the divine verse: "From it We created you, and into it We shall return you, and from it We shall bring you out once again." Additionally, we aim to empower youth in qualified industrial areas by providing job opportunities that support the localization of employment and strengthen the local economy

OUR VISION

To create a circular economy where waste is minimized, resources are efficiently reused, and our communities are empowered to live in harmony with the environment

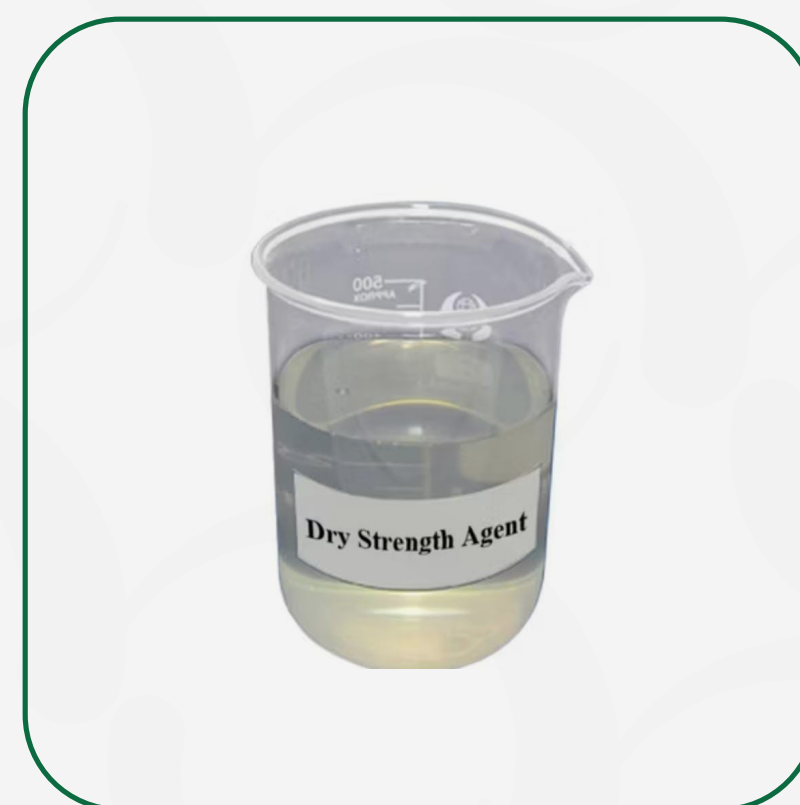

OUR MISSION

We are dedicated to conserving resources, promoting sustainability, and collaborate closely with industry stakeholders to towards a more a sustainable future.

OUR PRODUCTS AND SERVICES

We offer a comprehensive range of high-quality products specifically designed for various industries, such as paints, industrial solvents, and other chemical solutions. We focus on meeting the diverse needs of our customers while ensuring high efficiency and optimal quality in all our products. Additionally, we strive to import high-demand products and provide them locally as a Saudi-made product by manufacturing them according to Saudi standards, contributing to the enhancement of local industry and reducing reliance on imports

OUR RECYCLING PROCESS CONSISTS OF FOUR PHASES

- **A - Collection**
- **B - Segregation**
- **C - Treatment/Recycling**
- **D - Reuse**

INNOVATION AND DEVELOPMENT

At NCCO, we are constantly striving to develop innovative ideas and transform them into fully integrated industrial projects, enhancing our ability to deliver high-quality products at lower costs to consumers. Through our ongoing efforts to reduce reliance on imports, we ensure that the materials used in manufacturing our products are entirely locally sourced. This contributes to strengthening our export capabilities while promoting local sustainability

OUR CORE VALUES

Quality

We are committed to providing products and services that meet the highest quality standards, with a focus on meeting the needs of our customers and achieving the highest levels of performance and efficiency in all aspects of our operations

Innovation

We keep up with the latest technological advancements in developing our products, with a commitment to offering innovative and sustainable solutions that contribute to improving environmental performance and reducing negative impacts on the environment

Sustainability

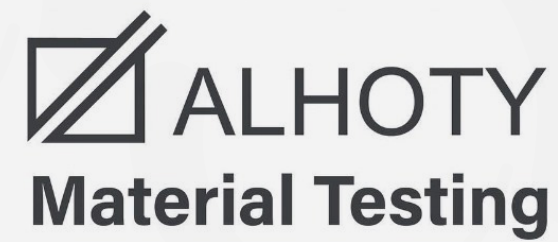

We place sustainability at the core of our strategies by adopting circular economy practices and considering the environmental impacts at every stage of our operations, which helps preserve natural resources and ensures a sustainable future

Transparency

We believe in building long-term, sustainable relationships with our customers based on transparency and integrity, always striving to achieve the highest levels of trust and collaboration in all our dealings

OUR PARTNERS

We are proud to collaborate with a diverse range of success partners, including
Our partners trust us to deliver reliable, high-quality solutions tailored to their unique needs

OUR TEAM

Our team consists of a group of highly skilled experts and specialists in the fields of chemistry and petrochemicals, possessing extensive experience and in-depth industry knowledge. Our team works in a cohesive and highly professional manner to achieve our vision and strategic objectives. We believe in the power of innovation and continuous development, which enables us to provide effective and innovative solutions that meet market needs and contribute to improving both environmental and industrial performance. Through our commitment to collaboration and teamwork, our team continues to strive for excellence and creativity in every aspect of our operations

TARGET MARKET

At NCCO, we target the local market across its various sectors, including factories, suppliers, and companies that rely on paints, chemical, and petrochemical products in their operations. We strive to meet the needs of local customers by providing innovative, high-quality products that compete with imported alternatives, with a strong focus on reducing product costs for consumers.

We also work on offering tailored solutions that meet the specific requirements of each client, enhancing our position as a trusted partner and supporter of local industry growth while contributing to economic sustainability

OUR FUTURE GOALS

At **NCCO**, our future vision revolves around expansion and growth to meet the increasing demand for our products and services.

Operate production lines at full capacity

Maximize the utilization of current production lines to ensure the highest levels of efficiency and effectively meet market needs.

Establish the second phase

Begin developing the second phase of our operations, specializing in innovative production lines that cater to emerging market demands. This phase will be headquartered in the Third Industrial City in Dammam, reflecting our commitment to strategic growth and proximity to key markets.

Expand into major industrial areas

Following Dammam, we plan to establish additional facilities in prominent industrial zones such as Yanbu, followed by Jubail, and then Riyadh. This expansion aims to diversify our operations and enhance our ability to serve clients efficiently across the Kingdom.

OUR COMPETITIVE EDGE

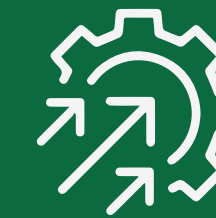

Innovative and Sustainable Solutions

Transforming industrial and petrochemical waste into high-value market products, enhancing environmental sustainability and reducing the harm caused by waste disposal

Locally Manufactured and Eco-Friendly Materials

Utilizing 100% locally produced materials, including recycled industrial and petrochemical waste, to ensure sustainability and environmental responsibility

Advanced Operational Efficiency

Operating production lines at maximum capacity to effectively meet the needs of the local market

Supporting the National Economy

Producing locally-manufactured products that meet the highest standards, contributing to national production growth and creating job opportunities for Saudi youth

Product Diversity

Offering a comprehensive range of products, from industrial paints to innovative chemical materials, with customized solutions tailored to meet diverse customer needs

With this approach, NCCO's a symbol of industrial progress in the Kingdom, representing a model of companies that balance profitability with environmental and social responsibility
